

COMMUNITY LEGAL ADVISORS

A DIVISION OF FREIWALD LAW, PC

Providing vital legal services at very affordable prices.

Planning for the future can be difficult and expensive. Let us be there every step of the way at prices you can afford with people you can trust. At **Community Legal Advisors**, you'll feel confident in your future so you can focus on the present.

WHO WE ARE

Community Legal Advisors is an innovative program from Freiwald Law designed to provide affordable estate and healthcare planning services to individuals and families who can't afford big-firm fees.

There is a common misconception that lower income households don't need estate planning services. The reality is that everyone, regardless of their personal wealth, can benefit from having even a simple Will. Proper estate planning helps prepare for the inevitable.

Many people we meet with also tell us that they haven't done any estate or healthcare planning because they believe that only wealthy people can afford to pay legal fees. To that we say: "You haven't met the right attorneys."

Our **Community Legal Advisors** team is available to consult with you and your family members to address important healthcare-related estate planning needs such as creating a Will, Powers of Attorney, and an Advance Healthcare Directive. We strive to provide high quality and affordable legal advice that everyone deserves.

HOW CAN WE HELP YOU?

Consult with CLA to evaluate your current healthcare and estate planning needs. Your initial consultation is free and we will help you identify any gaps in your planning. There is no hidden fee and no risk to you. We offer flat rates for most of our services so you know upfront how much they will cost. For those services that are more complex and require additional consultation, we also offer hourly rates. We are sensitive to your needs and to your budget.

Community Legal Advisors is owned and operated by **Freiwald Law, PC**.

Freiwald Law has recovered tens of millions of dollars on behalf of those who have suffered serious injuries because of medical malpractice, defective products, motor vehicle accidents, medication errors, toxic exposure and other causes. Our attorneys also represent whistleblowers, victims of crime and civil rights violations, and others who have suffered a catastrophic loss.
